EDUCATION

Bachelors of Science in Computer Science and Information Technology
NED University of Engineering and Technology(NEDUET)

10/2020 - Present   *GPA: 3.8*

Projects

- Event Management System(OOP) [2nd Semester]
- Quadratic Equation Solver(Python) [1st Semester]
- Matrices(Python) [1st Semester]
- Word Game(Python) [1st Semester]

Intermediate in Pre-engineering
BAMM PECHS College for Women

03/2018 - 03/2020   *Percentage: 87%*

EXPERIENCE

IT Intern
Karachi Development Authority

03/2023 - 04/2023   *Karachi*

I got a comprehensive overview of the organization's server architecture. This included exposure to various server types, configurations, and their roles in supporting the IT ecosystem. They gave an in-depth tour of the organization's technology hardware, including power plugs and integrated circuits (ICs)

Technical Content Creator
Google Developer Student Clubs (NEDUET)

2022 - Present   *Remote*

During my time at Google Developers Students Club (GDSC), I played a key role in crafting engaging content for event promotion. This involved creating detailed event descriptions, captivating introductory captions, and informative blog posts. I also contributed to event documentation and collaborated with the social media team to ensure consistent messaging. My efforts aimed to enhance community engagement and support the club's overall mission.

Content Writer
Students' Task Force(STF),Bring The Change(BTC)

12/2021 - Present   *Remote*

I focused on creating transitional content that smoothly guided readers through different religious, moral, and cultural concepts. I undertook the responsibility of communicating profound religious insights and teachings for BTC. Moreover, I played a key role in crafting engaging content for event promotion for STF.
